

Directions: Color each set a different color. Cut out each set. Paste the partners together on another piece of paper to show all of the partners for 17 and 18.

17's & 18's

The image displays ten ten-frame grids arranged in two rows. The first row consists of four grids: a 4x2 grid, a 5x2 grid, a 6x2 grid, and a 7x2 grid. The second row consists of four grids: a 5x2 grid, a 6x2 grid, a 4x2 grid, and a 5x2 grid. Each grid is a simple outline of a rectangle divided into two columns and a specified number of rows.
